17 PARTNERSHIPS FOR THE GOALS

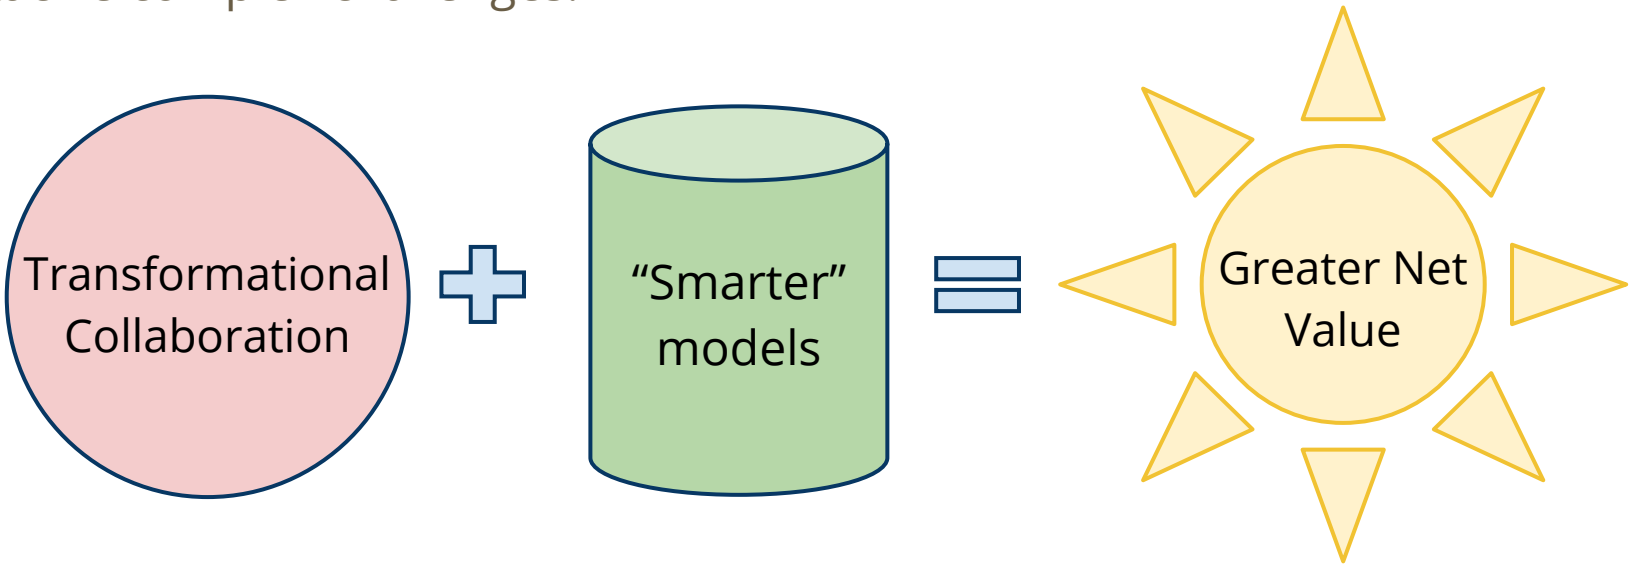
What is the benefit in us, Victoria University of Wellington, advancing the 2030 agenda?

17 PARTNERSHIPS FOR THE GOALS

VICTORIA UNIVERSITY OF WELLINGTON TE HERENGA WAKA

Collaborative Advantage of Academia

We know partnerships between academia, government, NGOs, and multiple actors often generates new **knowledge**, **innovation**, and **morphs policies** to tackle complex challenges.



Project Aims: SDG.org.nz

Maintaining and regularly updating this website will serve four purposes:

1. It will “hold the mirror” on New Zealand’s progress towards the attainment of the Goals (both relative to our own history, and in comparison with other countries).
2. It will serve as a catalyst for conversations on how we can make progress towards the attainment of the Goals.

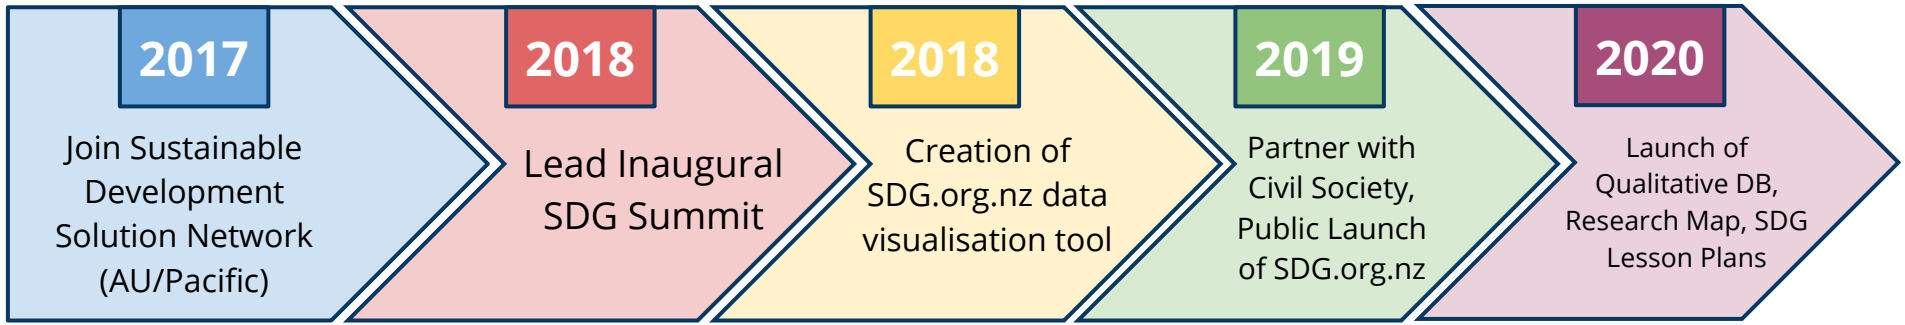
Project Aims: SDG.org.nz

3. It will facilitate within- and across-sector collaboration for informing and influencing public policy, towards the attainment of the Goals.

4. It will serve as an educational device, through links to research, publications, and conferences on the Goals.

The website, and associated activities, are intended to serve as a resource for New Zealand at large. Content as well as the activities associated with the website will be guided by a Steering Group, whose members represent academic, business, public, and non-government communities.

Anecdotal Evidence: SDG.org.nz



A **public good contribution** by the School of Government, of the Victoria University of Wellington.

Born out of the desire for **accountability**, **education**, and **cross-sectoral collaboration** working to accomplish the SDGs by 2030.

Sharing a people's perspective on the SDGs

April 16, 2019 • Leave a comment

By Ronja Ievers (Hui E! Community Aotearoa) E nga mana, E nga reo It has been 4 years since New Zealand made a commitment, when it signed onto the global 2030 Agenda for Sustainable Development, to empower people, reduce inequalities, promote social, economic and political inclusion, and to leave no one behind. Yet knowledge about the SDGs in New Zealand is still fragmented, and government engagement is low. Inequalities continue to exist and we are facing a major threat to our land, bio diversity, waterways and marine life. When the government therefore announced to present its first progress report (voluntary

The Importance of Biodiversity

April 16, 2019 • Leave a comment

By Sylvie McLean Our role in enhancing biodiversity outside of "protected areas." In any discussion of environmental issues it is important to step back and look at the bigger picture, to consider what values you hold and what your priorities are, and make robust, considered discussions. What does biodiversity mean to you? Is it national parks and the wilderness within them? Or is it your back garden, the trees that line the streets or the plants you have in your bedroom? Is it the stream that runs through your local park or the ocean of the harbour? What is it

Submit An Event
Please carefully read the following points before submitting an event for review.
An event should be submitted no less than two weeks prior to that event's date.
Please ensure the event isn't already listed.
Event submissions are consolidated on a weekly basis and brought to the SDG team for review.
If your event is cancelled or altered in any way, please contact us so that we may update the information in our directory.
If your event meets our requirements for relevance, content, safety, etc. we will contact you to confirm that your event has been listed in our directory.

REGISTER INTEREST
Date: Wednesday, 25th September, 2019
Time: 5:30pm – 7:00pm
Place: Old Government Buildings Lecture Theatre 4, upstairs on Level 1, Bunny St, Wellington
Cost: Free
Panelists:
Kura Moeahu, Max Rashbrooke, & Emily Beausoleil
Description:
How can we sustain our future well-being by giving due weight (alongside long term economic interests) to social and environmental issues and to the direct and local experience of those involved?
Inviting dissent leads to the fastest agreement for action — how we invite dissent and for what purpose, is crucial.
Our panelists will discuss how civil society forums that are participatory, listening and deliberative, both now and in a Maori iwi tradition, empower communities to —
Understand different viewpoints between themselves,
Create solutions together that benefit all,
Offer strong mandates to Government, and for personal ac on

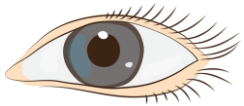
Retention of Focus in 2020: SDG.org.nz

1. What is our focus?



2. How have we maintained it?

3. What is our future trajectory?

Thematic Goals	Broad Goals	Instrument	Specific Actions	Success Factors/Notes
Serve as an educational device to the public and researchers; Reflect New Zealand's progress towards the attainment of the SDGs; Conversation catalyst; Influence public policy	Collaboration (with education sector)	**Advance the SDG Lesson Plans**	Finalize the lesson plans	Educator feedback
	Education		Integrate the lesson plans into primary and secondary	Spread of implementation
	Cash-flow	**Develop and get approval for tertiary course on the SDGs (in New Zealand context?)**	Devise a course curriculum	Accreditation and approval
	Education		Get course approval	Educator feedback
	Notoriety		Identify necessary resources	Student feedback
	Education	**Continue blog series**	Focus on marketing website	Diversify content of blogs
	Influence public policy		Queue and schedule submissions for regular publishing	Establish a rotation of regular contributors
	Site traffic		Recruit new blog contributors	Information accuracy
	User engagement with SDGs		Transfer blog to team member	Maintain non-bias, academic tone
	Education	**Qualitative dashboard**	Bring qualitative measures onto the site	Consistency
	Information robustness		Complete Goal 5 dashboard	Efficacy of information delivery
	Qualitative compliment to quantitative information		Meet audience needs	Reusabilty
	Site traffic		Offer non-data driven insights	Seamless integration
	User engagement with SDGs		Provide additional context for goals	User experience
	Education	**Data visualisation tool**	Find additional datasets and resources	Data integrity
	Site traffic		Improve data quantity and quality	Data robustness
	User engagement with SDGs		Update and maintain the model regularly	User experience
Facilitate within and across-sector collaboration	Collaboration	**Mapplication for SDG Researchers**	Allow entries for new research from approved addresses	Data integrity
	Education-sector resource		Create visual map with data markers of researchers and their respective SDG areas	High user engagement
	Site traffic		Develop database of researchers and researcher details	User experience
	User engagement with SDGs		Make usable and user-friendly	User feedback on helpfulness of tool
	Collaboration	**Gain presence on planning commitee for the next SDG summit**	Allow the addition of events and blogs	Active role in planning of summit
	Notoriety		Invite comitee member onto the internal team	Presence of commitee member on team
	Site traffic		Offer website as a resource for summit planning commitee	Use of website for promotional needs

Other considerations towards overall project success:	
Accuracy of site content	Data integrity
High user engagement	Information delivery
Project cash flow	Regular publishing of blogs
Site traffic	University notoriety on SDG frontier
User experience	Utilization of collaborative tools

How to contribute to our blog

If you are interested in becoming a blog contributor, please read the following submission guidelines first:

- We invite submissions of between 700 words and 1500 words in length.
- The writing style should be aimed at an informed general ***New Zealand*** audience.
- Sources should be APA referenced.
- Suggested images need to be at least Creative Commons Attribution.
- With an approved submission, you should include a short bio and (if possible) a professional headshot of reasonable resolution.
- You grant permission for SDG.org.nz to host your submission.

Suggested themes include (but are not limited to):

Biodiversity
Climate change
Community engagement
Deforestation
Development cooperation
Disability visibility and inclusion
Discrimination
Domestic violence (reduce)
Financial risk protection
Food security
Freshwater
Global partnership
Hazardous chemicals
Health and wellbeing
Health coverage
Human Rights
Migration
Poaching and trafficking
Policy frameworks
Pollution
Production and consumption
Research and development
Safeguard cultural diversity and heritage
Seas and marine life
